Pinkham Considers Only Available Location

The principal matter discussed at be meeting of the Board of Health yesternay afternoon was the proposed boys' home, which President Pinkham recommends be established on the Punkapu lands at Waimen, Hawaii, Mr. Pinkham's ideas on the subject are ers fully expressed in the pamphici thich he had prepared and submitted o the Board yesterday on the Kaploani Girl's home and the proposed oys' home. The pamphlet in large part appears elsewhere.

There was some discussion as to the est location for the boys' school. President Pinkham stated that he had been all over the islands and the only govrament land that he had been able to and that is adapted to the purpose is that near Walmea. Dr. Judd agreed with Mr. Pinkham that Walmea is satsfactory from a sanitary point of view but thought the water problem might ne a difficult one to solve. Pinkham stated that Mr. Vredenburg has water in that locality to run a small power plant. He thought the Government ould get the water.

The idea was advanced by Dr. Wayon and Mr. Smith that it would be a good thing, if possible, to combine the proposed boys' farm and the Boys' Industrial School at Waialce, Oahu.

At the conclusion of the discussion the matter up so that the Legislature Haw. C. & S. Co., \$84. will do something.
